Project List:

Table No: 2

S. No.	Micro-Project Title	Basic Components / Requirements	Expected Outcome
1	Build an Audio Amplifier	Transistor or suitable amplifier circuit, resistors, capacitors, speaker	Demonstrate amplification of an audio signal.
2	Transistor-Based Doorbell	NPN transistor, push button, buzzer, resistors	Construct a working electronic doorbell.
3	Simple Class A Amplifier for Radio Application	Transistor, resistors, capacitors, DC supply	Demonstrate amplification using a Class A circuit.
4	Electronic Water-Level Controller	Transistors, probes, resistors, LEDs or buzzer	Indicate water levels using an electronic circuit.
5	Transistor-Based LED Switch	NPN transistor, LED, resistor, push button	Demonstrate transistor switching.
6	Automatic Night Lamp	LDR, transistor, resistors, LED	Switch a lamp automatically according to ambient light.
7	Temperature-Activated Alarm	Temperature sensor, transistor, buzzer	Demonstrate an alarm activated by temperature.
8	Transistor-Based Touch Switch	Transistor, resistors, LED or buzzer	Demonstrate touch-controlled switching.

9	CE Amplifier Demonstration	NPN transistor, resistors, capacitors, signal source	Demonstrate amplification and observe input/output signals.
10	MOSFET-Based DC Load Switch	MOSFET, resistors, LED or low-voltage load	Control a load using a MOSFET.
11	JFET-Based Simple Amplifier	JFET, resistors, capacitors	Demonstrate signal amplification using a JFET.
12	RC Phase-Shift Oscillator	Transistor, resistors, capacitors	Generate a sinusoidal output.
13	Wien-Bridge Oscillator	Suitable amplifier stage, resistors, capacitors	Generate a sinusoidal waveform and measure its frequency.

NOTE:

1. Student groups have been formed and are listed in Table No. 1.
2. Each student group must select any one project from Table No. 2 and work on the selected project.
3. If a group has its own project idea that is not listed in Table No. 2, it may choose that project, provided it is aligned with the course curriculum.
4. The completed project must be submitted in physical form after the end-semester examination and before the final laboratory examination.
